

## HN-T16B/HN-T16C

High speed centrifuge is for measuring specific product values of blood cell and separating micro blood and solution. High quality plastic, microprocessor, high speed and efficient, safety lid lock.

### **Specification:**

HN-T16B use AC motor.

HN-T16C use DC brushless motor.

### **LED display**

Speed: start-16000 rpm step less regulation

Capacity: 1.5ml×12, 0.5ml×12 or 5ml×8

Max RCF: 17000xg

Timer: 0-30min
