QB-9002 Microporous Quick Shaker

Breaking through convention with first-class originality and updated structure. Streamline mainframes

formed by enhanced type engineering plastics, up to 4 to 6 mini w-plate quick shaking, non-skid natural rubber

shaking plate, and timing and continuity all together bring you an optimum platform for experiments.

| Power: | 220V |
|---------------------|----------------------------|
| Capacity: | 35W |
| Speed: | Step-less speed regulation |
| Frequency: | 0 – 1450 rpm |
| Timing: | 0 – 120 min / continuous |
| Loading: | Six 96-pore mini plate |
| Overall dimensions: | 370×335×145mm |
